

# Driving the world

Company profile

## FOREWORD

SEW-EURODRIVE stands for product orientation based on its modular system, for process orientation with precise coordination of consulting, product, delivery time, training and service support, and for a future focus with highly developed expertise that feeds the development of the various areas and every single product.

Moving this world takes a very special kind of drive – the people at SEW-EURODRIVE. They are what makes the company what it is, with their dedication, dynamism, creativity and a willingness to keep developing themselves and the products.

All these combine to create real added value for you, our partners and customers, that always goes beyond the product itself. Our offering is customized to you and tailored to your needs. No matter what your line of business may be.

Let us move your world together.

Greetings from Bruchsal.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Blickle'. The signature is stylized and written in a cursive-like font.

 Foundation 1931

 77 Drive Technology Center

 51 Countries

 15 Production plants

 More than 16 000 Employees

 Services along the system's entire life cycle

 At home in many industries

**SUCCESS IS WHAT DRIVES US**

**It all starts with courage  
and pioneering spirit.  
86 years ago.**

86 years of SEW-EURODRIVE started with an ingenious inventor: Albert Obermoser. His gear motor, designed in 1928, revolutionized drive technology. Christian Pähr, a trained banker, recognized the enormous potential of that modern drive design and, in 1931 – in the middle of social and political turmoil – he took a bold step and founded a company that would go on to set new standards and change the world of mobility: The Süddeutsche Elektromotoren-Werke in Bruchsal, SEW. Its 16 employees produced electric motors and gearmotors, electric band and circular saws and grinding motors on site in Nordbaden.

## The success story continues

In 1945 – Central Europe is in ruins – Christian Pähr's son-in-law Ernst Blickle took overall responsibility of SEW-EURODRIVE. Under his leadership, a new milestone of drive technology was achieved in 1965: The implementation of the modular concept for gearmotors. The basic principle still remains the foundation of our broad portfolio – from high-quality individual components to intelligent complete solutions – and gives us a decisive advantage over our competitors. Following the death of Ernst Blickle in 1986, his wife Edeltraut took over as Managing Partner of SEW-EURODRIVE and again set the course for the company's future orientation.

SEW-USOCOME, Haguenau, France

SEW-EURODRIVE INC., Lyman, South Carolina, USA

SEW-EURODRIVE Co., Ltd, Tianjin, China

Jürgen Blicke,  
Managing PartnerRainer Blicke,  
Partner

## From local player to global leader

SEW-EURODRIVE's first international production plant was set up by Ernst Blicke in Haguenau, France, in 1960. It was followed by many more plants and branches. Blicke's sons Rainer and Jürgen have been driving the company's international goals onward since 1987 in a consequent and very successful way: The company's status as a global player is being expanded further step by step.

One very special step was the foundation of SEW-EURODRIVE INC. in Lyman/USA. Together with the company headquarters in Germany and the subsidiary in China, it is one of our most important locations. Today we are looking at 15 production plants and 77 Drive Technology Centers in 51 countries, offering products, solutions and services for a host of customers from different industries: from the automotive industry to transportation, logistics and mining. Always true to our motto: Driving the world.

# Driving the world

## Well positioned for the future

That ability to adapt to the demands of an ever changing market has been a significant factor in further affirming and expanding our company's position as a market leader. The many awards SEW-EURODRIVE received over the years bear witness to this process – from the "Kundenchampion®" (Customer Champion) to the Environmental Technology Prize Baden-Württemberg. Our vision for the future is "Industry 4.0: from smart factory to smart company" – of course with drive and automation technology by SEW-EURODRIVE. The goal is to combine the "new" concepts of Industry 4.0 with the established principles of Lean Management and thus connect all parties involved in the value creation process: people, technology and the product. This is not just restricted to technological innovation, but also incorporates a creative value creation process with the employee front and center in a "conducting" role.

Such contemplation is not just pure theory at SEW-EURODRIVE, which is best shown by the showcase factory in our production and logistics plant in Graben-Neudorf. It illustrates logistics processes which were created with flexible, autonomous logistics assistants based on the principles of Industry 4.0. It utilizes our complete modular technology system – from simulation to drive technology and the complete control and automation technology, navigation and tracking, energy supply and storage, all the way to visualization and object-oriented parameterization.

**PRODUCTS AND SOLUTIONS**

## **SEW-EURODRIVE – Premium Drive Techno- logy for all Applications**

Drive technology from SEW-EURODRIVE is a fixture in modern engineering. The proven modular system ensures that all components are fully compatible. This allows you to construct highly complex drive architectures that offer maximum performance under all conditions. Our unique product portfolio combines high-quality mechanics, intricate electronics and application-specific IT components to give our international customer base real competitive advantages. The same is true of all our components, systems and solutions.

## Customized and Multifunctional – Our Gear Units, Motors, Gearmotors and Inverter Technology

Each gear unit, motor, gearmotor or frequency inverter is genuinely unique. We customize these high-power components to each buyer's specific requirements and applications. Our modular systems can be fitted to all sizes and power ranges thanks to the exceedingly fine graduations. That makes our drive components real all-rounders that adapt perfectly to their tasks.

## Powerful, Robust and Reliable – Our Industrial Gear Units

Many industrial applications require heavy loads to be moved safely, reliably and at high torques. SEW-EURODRIVE has a broad range of innovative and reliable industrial gear units for heavy-duty applications such as mining, wood processing, process engineering and construction materials production. A modular system allows our powerful components to be customized to your requirements. Our powerful, robust industrial gear units excel even under extreme conditions.

## Intelligent Systems – Our Decentralized Drives and Mechatronics

SEW-EURODRIVE is a pioneer in decentralized drives and mechatronics. We realized early that modern system architectures and their particular design traits require customized drive solutions. We have reacted to these market demands by developing autonomous, efficient systems that do not require a control cabinet. Drive solutions like our MOVIGEAR® mechatronic drive system are now the standard for decentralized drive technology: These modular, flexible, cost-effective and energy-efficient solutions meet the essential requirements of modern automation technology.

## High-precision Performance – Our Servo Drive Technology

Modern production plants or intralogistics are just a few of the areas that require maximum dynamics, flexibility, precision and profitability. Our servo drive technology is ideally designed for these demanding requirements. Our versatile product portfolio is designed for practical use, allowing safe and accurate implementation of complex processes and system architectures. Servo drive technology by SEW-EURODRIVE exemplifies the power of modern, brand-name drive engineering. For any applications, worldwide.

## Compatibility and Functionality at All Levels – How We Can Help You Complete Your Application

Drive technology by SEW-EURODRIVE is aimed at sustainability and lasting customer benefits. Our full-scale solutions include drive components, control technology and a plethora of other components to round out your application solution. From industrial communication and safety technology to operation and startup, they meet our customers' requirements. The result is drive solutions from a single source whose cost-effectiveness and practical benefits impress customers at every phase in the project.

**CORE COMPETENCIES AND  
CUSTOMER BENEFITS**

## **An Eye on the Future – Research and Development at SEW-EURODRIVE**

SEW-EURODRIVE has been setting standards in drive engineering for 86 years. Our worldwide success is based on innovation, an effect of consistent research and development. The Ernst Blicke Innovation Center (EBIC) in Bruchsal exemplifies this mentality. It is where ideas turn into finished drive system components that let us build exactly the innovative drive solutions our customers expect. Intricate development processes and research collaborations with renowned partners allow us to play a key role in shaping the future of drive technology.

## Services along the system's entire life cycle

As a specialist in drive technology, we never stand still. Not only are we constantly optimizing our own processes, but we also offer our customers a comprehensive range of services for the system's entire life cycle. We would like to support you in this by providing you with the service you need right now and giving you the best possible assistance. This might involve personal support with project planning and design during your planning and engineering phase, or it could be a comprehensive range of repair services, including picking up the components, during the utilization phase, if things are urgent. Just Life Cycle Services!

## Consistent and Thorough - Our Quality Management

Quality is our customers' greatest benefit. Fully aware of its name in drive technology, SEW-EURODRIVE uses meticulous quality management to ensure that global customers enjoy maximum operational reliability. Our entire production strategy is based on this ambitious goal. All of our production processes follow the Zero Defects system. We use state-of-the-art measuring procedures to repeatedly check the quality of every single part. This allows us to guarantee unparalleled quality standards and fulfill all legal requirements for functional safety.

## On Site Worldwide for Our Customers – Our Global Production and Service Network

SEW-EURODRIVE thinks globally and acts locally. We created the ideal base with our global network of 15 central production plants and 77 Drive Technology Centers across 51 countries. Our goal: ensure short delivery times and fast service for our customers the world over, while taking the specific requirements of the local markets into account. With that in mind, we founded our first plant outside of Germany in Haguenau, France, in 1960. The results of this bold step in the years that followed now benefit our customers across the globe.

## **Qualified and Accessible – Market-Oriented Sales – Made by SEW-EURODRIVE**

No product in the world is so good that it finds its own customers. SEW-EURODRIVE's unique solution portfolio rests on a close-knit sales network of drive engineering specialists with solid industry knowledge. From planning to startup and beyond – we value close contact to our customers. We focus on things that matter, to the benefit of everyone involved. At the same time, we always bear in mind the specific characteristics of the individual market and work closely with regional partners.

## Drive Technology - Made by People

SEW-EURODRIVE's successful products, solutions and services originate from the minds of its employees. Their skills, commitment and motivation are the essence of the SEW-EURODRIVE family business. This is why we ensure that our employees work in a motivated environment and have all they need to achieve their potential. This approach benefits both our company, and our customers, worldwide. The impressive results create real added value and secure measurable competitive advantages on an increasingly complex marketplace.

**AMBITION AND OUTLOOK**

## **Sustainable and Innovative - Focused on the Future**

Future orientation: This is what drives us at SEW-EURODRIVE. For us, this not only involves the development of modern and groundbreaking solutions, but also thinking one step ahead. It means to consider environmental compatibility, to make future-proof decisions, and to be aware of a special responsibility: sustainable entrepreneurship. Sustainability is more than a buzzword for us – it is an inherent part of our philosophy and extends across all divisions.

Our courage to have a vision, and to put it into action, includes economical, ecological, and social sustainability. In the spirit of a true "Green Company", we are using a holistic approach in all areas of SEW-EURODRIVE. We consider our employees, partners, and suppliers, and we strive for fairness in all our dealings with them.

## **Outstanding – SEW-EURODRIVE’s Commitment to Sustainability**

Resource-conscious actions are one of the declared objectives of our philosophy. Our focus is not only on the environment, but also on the people and the economic aspects in our company. SEW-EURODRIVE banks on the development of energy-efficient products, trusts a

production strategy that is based on conserving valuable resources, relies on a modern logistics concept of short distances, and supports an innovative HR management that secures valuable knowledge and real talent for the company.

Our goal is to foster traditions and innovation, to reduce costs, and to invest in the future, while negotiating good prices and fair conditions, and meeting challenges both individually and as a team. We regard this as an investment in the future of SEW-EURODRIVE and as our contribution to society – always with a clear focus on people.

**DRIVING  
THE  
FUTURE**

MAKE YOUR NEXT  
MOVE WITH US

## **Driving the future together! SEW-EURODRIVE – an excellent employer**

An innovative industry pioneer like SEW-EURODRIVE needs dedicated employees. In our company, people are at the forefront of all we do! Our employees experience this on an everyday basis, in their

interactions and the respect they have for each other. As a result, we are always able to offer our customers the best solution. And offer our employees outstanding prospects! We focus on both training and further education, and targeted further development of our employees. This means not only preparing advancement programs and career paths for managers and experts, but also state-of-the-art training management that promotes lifelong learning.

We also rely on innovative **personnel marketing** that breaks new ground:

- With our talent relationship management, we find, challenge and encourage talented people.
- We are expanding our online activities to use new channels for communication and exchange with potential employees, and to allow simple, fast application processes.

**Company health management** is another important topic – we take a comprehensive approach. Today's market has high standards for productivity, flexibility, creativity and speed; and places considerable demands on companies and their employees. We have responded

by establishing conditions that allow all our employees to be healthy, motivated and dedicated to their work.

It is important to us that **family and career** should not be mutually exclusive. We offer our employees tailored, flexible work schedules and an in-house kindergarten. Concrete benefits such as extremely generous pension provision and much more are also par for the course with us, and part of what has won us several awards as an employer.

All these measures get us ready for the future and are essential to helping us defend our position on a highly complex market.

# SEW-EURODRIVE – A Global Player with a Strong Background and Persuasive Results

## Management with vision and clear goals:

Managing Partner / Partner:

Jürgen Blickle, Rainer Blickle

Management Board:

Jürgen Blickle (Managing Partner)

Udo Aull (Managing Director Sales and Marketing)

Johann Soder (Managing Director Technology)

Dr. Jürgen Zanghellini (Managing Director Finance, IT, Purchasing, HR)

## Current sales volume:

Sales for the 2016/17 fiscal year: over EUR 2.8 billion

## Sales development over the last 10 years (in euros):

# SEW-EURODRIVE – There for You Locally Around the World

## A company with potential and traditions

- An owner-operated global family company for 86 years
- Founded in 1931
- Represented around the world in 51 countries and on five continents
- Production and service power in 15 production plants and 77 Drive Technology Center locations
- Headquarters in Bruchsal, Germany

# SEW-EURODRIVE – We Can Count on Our Employees

## Current total number of employees

- In 2016, over 16,000 employees in production locations, Drive Technology Centers and sales offices
- More than 1,300 engineers in a wide variety of technical disciplines and specialized areas (Germany)
- Some 550 researchers and developers in Innovation, Production and Process Management
- 140 students with internships, work study positions and theses each year
- Around 15 students in our own StudentsWorld advancement program
- Approximately 180 trainees in the industrial and commercial sectors, plus 70 cooperative education students

## Theses and internships in 2016

- 50 bachelor's, master's and doctoral theses
- 58 internships and pre-study internships
- 11 theses as part of additional technical training

## Development of the Number of Employees Worldwide in the Last 10 Years

# Sustainability and Future Orientation at SEW-EURODRIVE

## Our social responsibility

- SEW-EURODRIVE takes its commitment to the guidelines of the Global Compact of the United Nations seriously and implements it worldwide.
- By signing the ZVEI-Code of Conduct in 2009 we officially committed ourselves to its goals and their implementation.
- In 2016, we published our own SEW-EURODRIVE Code of Conduct. As a family company with an 86-year tradition that is active worldwide, we have a great social responsibility – for our employees, customers, suppliers and the public – that we strive to live up to. This responsibility includes abiding by applicable laws, respecting core ethical values and basing our actions on the 10 core principles of SEW-EURODRIVE.

## Our responsibility to our employees

- **Company health management** is an important topic which we take very seriously – our comprehensive approach helps keep our employees healthy, motivated and dedicated to their work. For example, we organize annual health days on various topics to inform and motivate our employees, encouraging them to take responsibility for their own health. Our health management, vital360°, distinguished itself in the Corporate Health Award 2015 by receiving the Seal of Excellence. This distinguishes SEW-EURODRIVE as one of the healthiest companies in Germany.
- For us, work and family don't come into conflict. We offer individual solutions and flexible working hours.

- Various development programs such as Leadership and Management Excellence, Key Talent Program and Young Potential Program.
- Extensive range of seminars and training options.
- Subsidized canteen food
- Company retirement plan
- Financial contributions toward weddings and births.
- Provision of a comprehensive recreation program.
- Adherence to all safety-relevant regulations and guidelines is the highest priority at SEW-EURODRIVE. Employees receive the essential information and numerous practical tips.

## Our responsible human resources management and personnel marketing concepts

- We use talent relationship management as an element of our personnel marketing mix with the goal of attracting promising candidates to our company. For this purpose, we identify experienced engineers and computer scientists with key technical qualifications, contact them on a professional level, and maintain this contact if the candidate wants us to.
- In particular, we want to interest young people in SEW-EURODRIVE and we offer a multitude of opportunities to get to know us. These include the annual "Girls' Day", the informational evening about cooperative education programs, the "Training Day," our presence at various training trade shows, and many programs such as internships, lectures and plant tours.

- People with severe disabilities are integrated quite naturally by SEW-EURODRIVE into our shared working life in the course of training and employment.
- We offer individual support for our employees who are differently abled or have complaints and limitations, and we assist them intensively with setting up their workplaces and designing their work environments.
- In April 2014, SEW-EURODRIVE received certification from VDI-Nachrichten, a news service provided by VDI, the Association of German Engineers, and TÜV Rheinland as an "Outstanding Employer for Engineers" for the second time after 2011, demonstrating the company's exemplary dedication to meeting the needs of its engineers and other employees. Each certification is valid for three years.
- In terms of learning and development, we rely on advanced technologies and offer flexible, multifaceted educational opportunities to support everyday learning.
- Our personnel management is based on challenging development programs and on a stringent career concept for key positions.
- We believe in consistent encouragement of the next generation of talent.
- We offer our employees a broad range of leisure activities based on their interests, which our trainees design and organize each year.
- We rely on target-oriented and consistent cooperation with universities, technical colleges, and other career-oriented institutions of higher education.
- Our university marketing activities include plant tours, SEW days with professional lectures and project topics, and professional contributions to lectures, seminars, and congresses.

Our drive technology seminar, for example, is regularly targeted at university students.

- With its StudentsWorld parallel program, SEW-EURODRIVE also supports young people who have proved their worth during their work at SEW-EURODRIVE and come from the specialty disciplines of electrical engineering, mechatronics, mechanical engineering and IT.

### **Our cooperation agreements and network partnerships**

- With "StudiumPlus," we have entered into a long-term cooperation with the Mechanical Engineering, Mechatronics and Electronics departments at Karlsruhe Technical College. StudiumPlus is a cooperative education program that combines a bachelor's degree from Karlsruhe Technical College with professional training at SEW-EURODRIVE.
- We have established working groups on the topic of drive technology at trade schools in the German states Rhineland-Palatinate and Hesse.
- We are a partner of the KompetenzKompass advancement program for students at the Karlsruhe Institute of Technology
- We cooperate with various universities and colleges, for example with:
  - Active support for the expansion of the AALE university and college network (colloquium for applied automation technology in education and development)
  - Cooperation with the Westphalian University of Applied Sciences' Bocholt campus for the development and implementation of highly dynamic driving simulators
- We are committed to a research project in the Ruhr region's EffizienzCluster (efficiency cluster) program.

### Corporate citizenship

- With the SEW-EURODRIVE Foundation, we have established a foundation whose goal is to effectively encourage scientific work and important research projects in the areas of technology and business.
- The SEW-EURODRIVE Foundation awards a graduate prize and the ERNST BLICKLE PRIZE for outstanding scientists every two years.
- We at SEW-EURODRIVE support a multitude of institutions and educational institutions with donations and contributions.

### Our sustainability projects around the world

- We at SEW-EURODRIVE encourage goal-oriented environmental protection measures such as waste separation and recycling.
- We consistently rely on energy-saving measures and the use of the latest technology in order to reduce the energy consumption considerably at our worldwide locations. This applies especially for potential savings of high-energy systems in the areas of production, air conditioning and heating.
- We help those in need in cooperation with local organizations and institutions.

### Our responsibility for the environment

- We at SEW-EURODRIVE regard sustainability with respect to environmentally conscious behavior as one of the core goals of our corporate philosophy.
- For new buildings and renovations in all of our worldwide locations, we use state-of-the-art technology to protect the climate and save valuable resources.

- For our products, we use only environmentally friendly materials and raw materials, and we avoid the use of problematic substances that harm the environment at all production levels. This way, we comply on all levels with the valid laws and guidelines of the German federal government and the EU, such as the law on electronic devices valid since 2006 and the EU RoHS directive.
- We consistently invest in the development of sustainable and energy-saving products. These include AC motors with extremely efficient cast copper technology and the effiDRIVE® energy-saving concept.
- Even during the planning and development of our products, we consider their optimal recycling capability and the reusability of the raw materials and materials used.
- Since 2008, we have been an official partner of the GoGreen program of the Deutsche Post.
- Since September 1, 2010, all printed materials at SEW-EURODRIVE have been produced with zero impact on the environment in collaboration with ClimatePartner, an environmental consultancy firm.
- In 2009, our state-of-the-art assembly plant in the South Indian city of Chennai was the first green factory commissioned in the drive technology sector in India.
- With the opening of our new industrial gear unit plant in Bruchsal in 2010, we implemented a sustainable overall concept that, thanks to its technical capabilities, reduces annual CO<sub>2</sub> emissions by 1,381.5 metric tons and saves up to 1.5 billion gallons of fresh water.
- SEW-EURODRIVE commissioned additional climate-friendly plants and partial systems with modern environmental protection technology in the French city of Hagenau and in the Brazilian city of Indaítuba in 2010.

# SEW-EURODRIVE – Milestones of Our History at a Glance

## 1931

Christian Pähr founds “Süddeutsche Elektromotoren-Werke” in the town of Bruchsal in Baden

## 1945

Ernst Blickle, the father of the current owners Rainer and Jürgen Blickle, takes over management

## 1960

Construction of the first foreign production plant in Hagenau, France, and the establishment of the first foreign company SEW-USOCOME SA

## From 1968 to 2011

Establishment and growth of production locations in 45 countries around the globe

## 1965

SEW develops modular concept for gearmotors

## 1968

Foundation of the first Drive Technology Center

## 1972

Goal-oriented expansion through the takeover of the Obermoser Company Group

## 1975

Establishment of the foreign company SEW DO BRASIL Motores-Redutores LTDA in São Paulo, Brazil

## 1983

Establishment of the US subsidiary SEW-EURODRIVE INC. in Lyman, South Carolina

## 1987 to 1989

Rainer and Jürgen Blickle take over as Managing Partners of the SEW-EURODRIVE Group

## 1989

Edeltraut Blickle, Ernst Blickle’s wife, establishes the SEW-EURODRIVE Foundation

## 1990

Goal-oriented expansion through the acquisition of a majority share in Pfeffer & Partner Getriebebau GmbH in Wiesloch, Germany

## 1992

Establishment of the subsidiary SEW-EURODRIVE S.A. in Forbach, France

## 1993

SEW-EURODRIVE is certified according to ISO 9001 quality management

## 1994

Market introduction of the innovative SPIROPLAN® gearmotor series

**1994**

Goal-oriented expansion into Asia with the foundation of the subsidiary SEW-EURODRIVE Co., Ltd. in Tianjin, China

**1994**

Expansion into Northern Europe through the acquisition of shares in the Finnish Santasalo Ltd. in Helsinki

**1995**

Market introduction of the pioneering "7" gearmotor series

**1997**

The production plant in Haguenau, France wins the coveted "Factory of the Year – Industrial Excellence Award"

**1997**

Market introduction of the revolutionary electronic control components MOVIMOT®, MOVITRAC® 31C, MOVIDRIVE®, and MOVIDYN®

**1998**

Market introduction of the innovative MOVI-SWITCH® design, the asynchronous servo motors of the CT/CV series, and the power-optimized SEW-SANTASALO planetary gearmotors

**1999**

Opening of the new electronic components production in Bruchsal, Baden, Germany

**2002**

Market introduction of the DC/CM synchronous servomotor series

**2002**

Introduction of the customer-oriented Complete Drive Management CDM®

**2002**

The innovative MOVITRANS® system makes its mark in contact-free energy transfer

**2003**

SEW-EURODRIVE opens the Ernst-Blickle-Innovation-Center, or EBIC for short, in Bruchsal; it is the company's central research and development location

**2004**

Opening of the new Service Competence Center in Graben-Neudorf, Germany

**2004**

Market introduction of the servo-helical-bevel gear units in the BSF series, the PSF/PSKF and PSBF servo planetary gear units, and the synchronous linear motors from SEW-EURODRIVE

**2005**

The MOVIGEAR® mechatronic drive solution and the MOVIPRO® frequency inverter for decentralized applications arrive on the market

**2005**

Market introduction of the MOVIAxis® and MOVI-PLC® systems and of the MOVITools® MotionStudio software toolkit

**2005**

SEW-EURODRIVE employs more than 10,000 people around the world.

**2006**

Market launch of MOVITRAC® B frequency inverter and the CMP.. synchronous servomotor series

**2006**

SEW-EURODRIVE celebrates 75 years and the opening of the DriveAcademy®

**2006**

Market launch of EMS system toolbox for industrial electrified monorail applications

**2007**

Market launch of the DR.. motor modular system, PSC planetary servo gear unit series, CMS.. electric cylinder, series X industrial gear units and the MOVIFIT® drive controller

**2007**

Market launch of the modular system for automated guided vehicle systems (AGV) and the MOVIVISION® software solution

**2007**

SEW-EURODRIVE introduces the "Complete Drive Service" (CDS®) service program

**2008**

Groundbreaking at new industrial gear unit production facility in Bruchsal

**2008**

Global launch of the DR.. motor modular system

**2009**

SEW-EURODRIVE presents the DriveBenefits service portfolio to its customers for the first time and introduces it to the market that same year

**2010**

Opening of the new large gear unit plant in Bruchsal

**2011**

Launch of the MAXOLUTION® pre-defined application packages and individual system solutions

**2013**

Market launch of DR...J synchronous motors (LSPM technology and IE4)

**2014**

Jürgen Blickle takes over as Managing Partner at SEW-EURODRIVE, following his older brother, who steps down to the role of a partner due to old age.

**2014**

Market launch MOVI4R-U® simple inverter.

**2015**

With the inauguration of the new plant in Brumath in February, SEW-EURODRIVE acquires the necessary resources for further growth and shorter delivery times on the French and European markets. Brumath is the third production and assembly location in France.

**2015**

Market launch DRN.. motors (IE3) and Double brake with functional safety

**2015**

SEW-EURODRIVE breaks the ground for general developments, including the construction of a new electronics production facility at the Bruchsal site, as well as the expansion of the production location in Graben-Neudorf.

**2015**

Market launch of the mechatronic industrial gear unit (MIG)

**2016**

The Brazilian production location is now certified to IEC 80079 and IEC 60079. This includes certification of the EDRS.. and EDRE.. motors to Brazilian Regulation No. 179.

**2016**

Market launch of the MOVI-C® – modular automation system

# Top Awards for Outstanding Services

**We work every day to develop our products, services and solutions further, and to come up with new ones for our customers. As you can see from the numerous awards we have received, the work pays off.**

## 2000

Presented with “Best Factory of the Year” award for the electronics production plant in Bruchsal by the publication “Wirtschaftswoche” and the management school “INSEAD”

## 2001

“Top Newcomer 2001” award for technology-oriented visiting and informational programs from the German Ministry of Research and Technology

## 2002

Presented with the Market Engineering Award “Best Manufacturing Strategy” by the consulting company Frost & Sullivan

Gold and silver awards for SEW-EURODRIVE from the readers of the US trade journal Plant Engineering in the category “Motors, drives, controllers” for drive systems for decentralized installation and in the category “Drive technology / power transfer” for the TorqLOC® mounting system

## 2003

Award “European Drive Vendor of the Year 2003” for the best products and best service from the IMS Research consulting company

“Service Leadership Award” on the market for gears and gearmotors from the consulting company Frost & Sullivan

## 2004

Awarded the “TOP honor prize 2004” by the German Ministry for Economic Affairs and Employment in the course of the TOP company meeting

## 2006

Presented with the “Business Development Strategy Leadership Award 2005” by the consulting company Frost & Sullivan

**2007**

Presented with the “Service Management Prize” for the CDS® customer service toolbox by the Kundendienstverband e.V. (customer service association)

Presented with the “Top Plant Award” for the production plant in Lyman by the US trade journal Plant Engineering

Presented with the “Best Product Award 2007” for MOVIFIT® by the readers of the trade journal “Process Engineering and Automation” in the category “Drives and accessories”

**2008**

Presented with the “Frost & Sullivan Award” for MOVIGEAR® as product innovation of the year 2007

Received the gold with the renowned prize “Germany’s Customer Champion 2008” for being one of the 50 outstanding companies in the customer management sector

Presented with the “GWA Profi 2008”, the B2B brand prize for communication, by the GWA

**2009**

Silver award “Germany’s Customer Champion 2009” and simultaneously winner of the special prizes “Best B2B Company”, “Best Company with more than 500 Employees”, and “Best Producing Company”

**2010**

Presented with the Bavarian State Prize “eCarTec Award 2010” for electromobility in the category “Energy, infrastructure, and connection technology”

**2011**

Presented with the “Best Employer Brand Award 2011” in the category “Hidden Champion” by the management consulting company Batten & Company

Presented with the environmental technology prize Baden-Württemberg 2011 in silver and in bronze for the categories “Energy efficiency” and “Measurement and control technology”

Awarded gold for the “Charging technology” sector in the Federal contest “Vision – Electromobile City of the Future” for the system from SEW-EURODRIVE for the contactless charging of electric vehicles

Innovation prize NEO2011, for the innovative system for contactless charging of electric vehicles. The innovation prize is awarded by the TechnologieRegion Karlsruhe for outstanding achievements in the mobility sector.

**2012**

Third place in the competition “Germany’s Customer Champion 2012” and winner of the special awards “Best Industrial Company” and “Best B2B Company”

**2013**

SEW-EURODRIVE is among the founding companies of the New Automation association for providing schools, colleges and universities with high-tech equipment. The association was founded as an initiative of the German Electrical and Electronics Manufacturers’ Association (ZVEI) with the objective of helping educational institutions to plan and implement practical projects in the fields of electrical automation technology and IT.

**2014**

We received the “Sustainable Production Award 2014” in the drive and fluid technology category for the new MOVI4R-U® inverter. The evaluation was based on the criteria of saving resources, environmental compatibility, and the product’s level of technical innovation and cost-effectiveness.

**2015**

SEW-EURODRIVE is one of fifteen companies in the DACH region to receive the Candidate Experience Award 2015. Our company performed very well, especially in terms of reapplication and recommendation figures.

Excellent recruiting: SEW-EURODRIVE claims first place with the golden seal “Best Recruiter 2015/16” in the system/mechanical engineering category and fourth place in the total ranking of 514 top employers in Germany.

The “Drive Power Solution” energy storage system secures second place in the “Companies with more than 100 employees” category at the Intec Awards 2015.

The vital360° health management program was awarded the seal of excellence in the 2015 Corporate Health Awards. This makes SEW-EURODRIVE one of Germany’s healthiest companies.

**2016**

At the 4th Industry 4.0 Convention on November 30, 2016 in Ulm, SEW-EURODRIVE won the “Lean & Industry 4.0” category of the Industry 4.0 Award 2016.

SEW-EURODRIVE receives the Diamond Star 2016 award. The drive automation specialist won in the Group sales 1-5 billion euros category for its pioneering work in the field of digitalization in production operations. The “Best Industrial Business Solution 4.0” was presented during the Handelsblatt’s “Industrial summit” annual conference in Stuttgart.

SEW-EURODRIVE in the top 10 at the “Top Service Deutschland” award.

SEW-EURODRIVE’s new “Safe Distance Monitoring” safety function has impressed the judges and won second place in the “Quality and Safety” category of the Handling Awards 2016.

# At Home on all World Markets – Certified Quality from SEW-EURODRIVE

Among other things, we use

## **Energy-saving regulations, energy-saving classes**

International: IE2, IE3, IE4

China: Grade 3

## **Approval certificates, test labels**

Europe: CE

Russia: Gost TR, Gost R, RMRS

China: CEL, CCC

USA: UL, UR, ee

Canada: CSA, CSAe

Brazil: ENCE

South Korea: REELS

## **Explosion protection**

Europe: ATEX (2014/34/EU)

International: IECEx (Standard gearmotors with EDR.. motors)

USA, Canada: Hazloc-NA® (Hazardous Location North America)

EISA 2007 and CSA C390-10

Eurasian customs union Russia / Belarus /

Kazakhstan / Armenia: TR CU

## **Occupational safety, machine safety**

BGV B11 (Occupational safety – Electromagnetic fields)

EN 61800-3 (Electric drives – EMC limit values)

EN 61800-5-2 (Electric drives – Functional safety)

EN ISO 13849-1 (Safety of machines / controllers)

IEC 61508 (Functional safety)

## **Additional guidelines, design specifications, and standards**

EN 61884 (Aerial lines)

EN ISO 9409 (Industrial robots – Mechanical interfaces)

ISO 14644-1 (Air purity class 1)

IEC 61131 (Programmable logic controllers)

IEC 61131-3 (Programmable logic controllers / language)

DIN ISO 10816-1 (Mechanical vibrations)

# Services along the system's entire life cycle

Customized offers are what is required – throughout the system's entire life cycle. This begins in the orientation phase and continues all the way through to the operation and modernization of your machinery and systems.

## Orientation

The following services are available to you:

Personal consulting

- Current and future trends
- Rules and regulations
- Application and industry expertise
- Knowledge transfer
- Information sharing at innovation level

Support tools & resources:

- Website
- Data and documents
- Specialist articles and newsletters
- Social media channels
- Trade fairs and customer events

## Planning & engineering

The following services are available to you:

- Concept development
- Project planning and design
- Engineering
- Maintenance and operating concepts
- Training
- Variant management

Support tools & resources:

- Product configurator
- Energy efficiency tools
- Variant management
- Safety technology selection aid
- Planning and configuration tool (Workbench)
- CDM® database
- SISTEMA software utility

### Procurement & delivery

The following services are available to you:

- Delivery service
- Intelligent material flow
- Electronic data interchange (EDI)
- Electronic billing
- Electronic notification of dispatch

Support tools & resources:

- Transaction overview
- Create a shopping cart/inquiry or order

### Installation & startup

The following services are available to you:

- Installation consulting
- Application programming
- Startup

Support tools & resources:

- MOVITOOLS® MotionStudio
- MOVIVISION®
- MOVISUITE®
- MOVISAFE®
- Software LT Shell
- Libraries and application modules

### Operation

The following services are available to you:

- Production support
- Remote service
- Repairs
- Inspection & Maintenance
- Spare parts service
- Pick-Up and Delivery-Service
- Express Assembly
- Condition monitoring
- 24h Service Hotline
- Energy management

Support tools & resources:

- Energy efficiency tools
- Variant management
- Troubleshooting
- Replacement parts or replacement product selection
- Scope diagnostic function
- CDM® database

### Modernization

The following services are available to you:

- Retrofit

Support tools & resources are available to you throughout the entire system life cycle.

# Range of services available from DriveAcademy®

## What we offer our customers

As one of the leading specialists in drive technology and drive automation, SEW-EURODRIVE offers its customers practically relevant product and technology training sessions organized by the DriveAcademy®.

- Standard product training sessions
- Customer-specific training sessions
  - Centrally at the DriveAcademy®
  - Locally on the customer's premises

## The topics we cover

- CCI-certified qualification program: SEW-EURODRIVE drive engineering solution
- Technical training on
  - Project planning for drives
  - Switch cabinet inverters
  - Decentralized drive systems
  - Functional safety technology
  - Control technology
  - Industrial communication
  - and much more
- Supplementary training programs
  - EMC in drive engineering
  - ATEX
  - Energy savings
  - Condition monitoring
  - and more

## Training and functional models we provide

- High-quality theoretical and practical training documents for electrical and mechanical drive technology.
- Multifunctional, application-specific training models for a variety of drive series such as MOVIDRIVE® B, MOVITRAC® B and MOVIAxis®, as well as special models and accessories.
- Training systems with various technologies from different industries and applications such as warehouse logistics, general materials handling technology, handling and robotics, etc.

## Services we offer

- Organization and implementation of German and international SEW-EURODRIVE events, customer events and visitor programs.
- Arranging locations, catering, entertainment and conference accommodations.
- Coordinating arrivals, departures and transfers, as well as conference documents and informational materials.
- Participant administration from invitations, registration and on-site service to preparation of certificates.

# Maximum Customer Benefit Thanks to a Unique Product Portfolio

## GEARMOTORS / GEAR UNITS

### Standard

Helical gear units/  
gearmotors  
R series

Parallel-shaft helical  
gear units/gearmotors  
F series

Helical-bevel gear  
units/gearmotors  
K series

Helical-worm gear units/  
gearmotors  
S series

SPIROPLAN® right-angle  
gear units/gearmotors,  
W series

### Electrified monorail system

Electrified monorail  
system gearmotors  
HW, HK series

### Variable speed gearmotors

VARILOC®  
(wide V-belt)

VARIMOT®  
(friction disks)

### Servo

Planetary servo gear  
units/gearmotors  
PS.F + PS.C series

Helical-bevel servo gear  
units/ gearmotors  
BS.F series

Precision servo  
gearmotors  
ZN.. series

### Stainless steel

Stainless steel gear units  
KESxx, RESxx series

### Accessories + options

Corrosion and  
surface protection

TorqLOC®  
hollow shaft  
mounting system

Oil condition monitoring

Vibration analysis

## MOTORS

### AC motors

Modular motor system  
IE1 to IE4  
DR.. / DRN.. (IE3) /  
DR... J (LSPM) /  
DRM.. / DRK.. series

DAS.. aseptic  
gearmotors / ASEPTIC<sup>SM</sup>  
drive package

### Servomotors

Synchronous servomotors  
CMP.. series  
**NEW:** Without encoder

Synchronous  
servomotors  
CM.. series

Asynchronous  
servomotors,  
DRL.. series

Cables and  
connection options

### Linear motion

SL2 synchronous  
linear servomotors

Standard CMS..  
and modular CSM..  
electric cylinders

### Accessories + options

Modular brake system  
and built-in encoders

**NEW**  
BF./BT..  
double brake

**NEW**  
Diagnostic unit  
option /DUE

Corrosion and  
surface protection

## INDUSTRIAL GEAR UNITS

### Helical/bevel-helical gear units

Helical gear units/  
bevel-helical gear units  
X series

Conveyor drive  
X series

Bucket elevator drive  
X series

Agitator drive  
X series

**NEW**  
Hoist drive  
X series

Helical gear units/  
bevel-helical gear units  
MC series

Helical gear units  
MACC series

Helical gear units  
M1N series

**Planetary gear units**

Helical gear units/  
bevel-helical gear units  
ML series

P series

**NEW**

P-X series

**NEW**

XP series

**DECENTRALIZED DRIVES/MECHATRONICS**

**Segmented girth gears**

**NEW**

**Gearmotor with inverter**

MOVIMOT®

**Mechatronische Antriebe**

Electronic motor  
DRC.. (IE4)

Field distributors and  
fieldbus interfaces  
**NEW: Z.9**

**Mechatronic drive system**  
MOVIGEAR® (IE4)

Installation topologies:  
SNI / SEW-EURODRIVE-  
system bus /  
binary / AS-Interface  
Central control cabinet

**Gearmotor with motor starter**

Options: mounting kit  
and GBG

MOVI-SWITCH®

**Servo**

OMP.. ELVCD  
decentralized extra-low  
voltage servo drives

**NEW**

ECCDriveS®  
drive system

**INVERTER TECHNOLOGY**

**Control cabinet installation**

MOVITRAC® LTE-B®  
basic inverters  
in IP20

MOVITRAC® LTP-B  
standard inverters  
in IP20

MOVITRAC® B  
standard inverters

MOVIDRIVE® B  
application inverters

MOVIAxis® multi-axis  
servo inverters

MOVIDRIVE® MDR  
regenerative  
power supply units

**Wall mounting**

MOVIV4R-U®  
basic inverters  
in IP54

MOVITRAC® LTE-B®  
inverters  
in IP66

MOVITRAC® LTP-B  
standard inverters  
in IP55

**Decentralized installation:  
Motor starters**

**NEW**

MOVIFIT® compact

**Decentralized installation: Inverters**

MOVI-SWITCH®

MOVIFIT®-SC

**NEW**

MOVIFIT® compact  
inverters

MOVIMOT® standard  
inverters

**Accessories: Software**

MOVIFIT® MC  
distributors  
for MOVIMOT®

MOVIFIT® FC  
inverters

MOVIPRO®  
standard and  
application inverters

MOVITOOLS®  
MotionStudio  
engineering software

MOVIVISION®  
parameterizable  
plant software

**SERVO DRIVE TECHNOLOGY**

**Servo gear units/gearmotors**

Planetary servo gear  
units/ gearmotors  
PS.F + PS.C series

Helical-bevel servo gear  
units/gearmotors  
BS.F series

**NEW**

Precision servo  
gearmotors  
ZN.. series

Servo gearmotors

**Servo gear units/gearmotors**

Corrosion and  
surface protection

TorqLOC® hollow shaft  
mounting system

**Servomotors**

Synchronous servomotors  
CMP.. series  
**NEW:** Without encoder

Synchronous  
servomotors  
CM.. series

DRLL.. asynchronous servomotors

Cables and connection options

**Linear motion**

SL2 synchronous linear servomotors

Standard CMS.. and modular CMSM.. electric cylinders

**Inverters – control cabinet installation**

MOVIDRIVE® application inverters      MOVIDRIVE® regenerative power supply units      MOVIAXIS® multi-axis servo inverters

**Accessories: Software**

MOVItools® MotionStudio and MOVIVISION®

### INDUSTRIAL COMMUNICATION

Industrial Ethernet

Conventional fieldbuses

SEW-EURODRIVE system buses  
- SNI  
- SBus  
- SBus<sup>PLUS</sup>

- Communication modules and fieldbus tools  
- Safe communication

### CONTROL TECHNOLOGY

**Decentralized controllers**

MOVIFIT® MTx Technology variant

MOVIFIT® FDC-SNI variant

MOVIPRO® ADC variant

**Controller for control cabinet installation**

Controller performance class standard      Controller performance class advanced      Controller performance class power

**Controller Software**

Free programming MOVI-PLC®

### OPERATION AND STARTUP

**Controller Software**

Parameterizable solutions (CCU)

**Operator panels**

Operator panels DOP C generation

**Software**

Key pads and interface adapters

**Software**

MOVItools® MotionStudio engineering software

### SAFETY TECHNOLOGY

**Software**

MOVIVISION® parameterizable plant software

**Control cabinet installation**

LT Shell software

**Control cabinet installation**

Integrated: with safe communication or independent MOVISAFE® safety technology      Modular: MOVISAFE® safety modules „compact“ or safety modules „multi-axis“

### CONTACTLESS ENERGY TRANSFER SYSTEM

MOVIFIT® / MOVIPRO®

**Integrated safety technology**

Motor options, brake control, brake diagnostics, safety configuration library

MOVITRANS® contactless energy transfer system

MOVI-DPS® decentralized power supply

### DIDACTICS MODULES

Didactics – Electromechanics

Didactics – Gear unit technology

Didactics systems

Documents

### EXPLOSION PROTECTION

**Explosion-proof designs**

Standard gear units/gearmotors, servo gear units/gearmotors  
EDR.. series AC motors, CMP.. series servomotors  
X, MC, P, P-X, M1N series industrial gear units

### ENERGY SAVING SOLUTIONS

Energy efficiency in the control cabinet and in servo applications
